The purpose of the Behavior Genetics Association is to promote scientific study of the interrelationship of genetic mechanisms and behavior, both human and animal; to encourage and aid the education and training of research workers in the field of behavior genetics; and to aid in the dissemination and interpretation to the general public of knowledge concerning the interrelationship of genetics and behavior, and its implications for health and human development and education.

For additional information about the Behavior Genetics Association, please contact Dr. Hermine Maes BGA Secretary, Virginia Institute for Psychiatric and Behavioral Genetics, Virginia Commonwealth University, Box 980003, Richmond VA 23298

**EXECUTIVE COMMITTEE**

Treasurer
Matt McGue
Member-at-Large
Nancy Pedersen
Member-at-Large
Deborah Finkel
Member-at-Large
Irwin Waldman

**MEETING INFORMATION**

The 29th Annual Meeting of the Behavior Genetics Association will be held at the Coast Plaza Suite Hotel at Stanley Park in Vancouver, British Columbia, Canada. The conference begins with an executive meeting on Saturday, July 3. Paper, poster and plenary sessions will be held throughout the day on July 4, 5, and 6. The opening reception is scheduled to begin at 6:00 PM on July 4. The banquet will be held on July 6 starting at 6:30 PM. A joint session of BGA and 9th biennial meeting of International Society for Study of Individual Differences (ISSID) will be held on the morning of July 7. This half-day session will be composed of symposia and paper presentations of mutual interest to and presented by members of both societies. The ISSID meeting itself runs from July 5 to 9 at the Coast Plaza Hotel.

Vancouver is situated on the coast of British Columbia, nestled between the Rocky and Coast mountain ranges and the Pacific Ocean, and is a popular resort and tourist destination. Vancouver has consistently been named one of the best cities to live in North America and is known for the natural beauty of its environs. The Coast Plaza Hotel is located next to the warm beaches of English Bay harbor (a two minute walk from the hotel) and Stanley Park consisting of five square miles of old growth forest in the heart of downtown Vancouver. Mountain hiking or sailing excursions are no more than an hour away from the hotel. Nearby attractions include Vancouver Island and Victoria a few hours away by ferry. The climate in July is warm and sunny, average temperature being 26°C.

Local Host: Dr. Kerry L. Jang
Department of Psychiatry
University of British Columbia
2255 Wesbrook Mall
Vancouver B.C.

Behavior Genetics Association 29th Annual Meeting
Behavior Genetics Association 29th Annual Meeting

**SYMPOSIUM I**

**Sunday July 4, 4:00 - 5:30**

**Barclay/Gilford Rooms**

**Introductory Remarks**

Helmut Nyborg

**IQ Gains and Fluid g: A Research Design to Discover Causes**

James R. Flynn

**The Secular Rise in Intelligence: Many Gains, Many Causes**

Ulric Neisser

**Secular and Non-Secular Change in Intelligence**

Nathan Brody

**Secular Changes in Longitudinal IQ: Individual and Group Differences**

Helmut Nyborg

**Implications of the Secular Rise in IQ for Convergence of Black and White IQ Scores**

Charles Murray

**Arthur R. Jensen**

Discussant

**Sunday July 4, 3:30 - 4:00**

**Coffee**

---

**SYMPOSIUM II**

**Monday July 5, 8:15 - 10:15**

**Barclay/Gilford Rooms**

**PAPER SESSION II**

**QTLs and TDTs**

Chair: John K. Hewitt

**4:00**

- Selecting Maximally Informative Sibships for QTL Linkage Analysis
  - Stacey S. Cherry, Pak C. Shami, Shaun Purcell, and John K. Hewitt

**4:15**

- Selecting Maximally Informative Sibships for QTL Association Analysis
  - Shaun Purcell, Stacey S. Cherry, Pak C. Shami, and John K. Hewitt

**4:30**

- Power of QTL Linkage and Association Analysis
  - Pak C. Shami, Stacey S. Cherry, and John K. Hewitt

**4:45**

- Testing Linkage and Linkage Disequilibrium with Quantitative Trait Loci in Nuclear Families: A DF Regression Model and Variance Component Extensions
  - Lon Cardon, G.R. Abecasis, and W.O.C. Cookson

**5:00**

- Genotype x Environment Factors in Transmission Disequilibrium Tests
  - Lindon J. Eaves, and Patrick F. Sullivan

---

**SYMPOSIUM III**

**Monday July 5, 4:00 - 5:30**

**PAPER SESSION III**

**Marriage, Parenting, and Personality**

Chair: Jenae M. Neiderhiser

**4:00**

- Genetic Effects in Parental Bonding
  - Paul Lichtenstein, David Reiss, Marianne Cederblad, Olle Elhammer, Jenae M. Neiderhiser, Kjell Hanson, and Nancy L. Pedersen

**4:15**

- The Association between Mothering and Marital Relationships: Is it all in the Genes?
  - Jenae M. Neiderhiser, Erica Spotts, Paul Lichtenstein, Nancy L. Pedersen, Kjell Hanson, Marianne Cederblad, Olle Elhammer, and David Reiss

**4:30**

- Exploring the genetic and environmental structure of the Tridimensional Personality Questionnaire
  - Michael C. Stallings, John K. Hewitt, Scott M. Hofer, Andrew Heath, and Lindon J. Eaves

**6:00 - 7:30**

**WELCOME RECEPTION**

---

**MONDAY JULY 5**

---

**SYMPOSIUM III**

**July 4, 4:00 - 5:30**

**PAPER SESSION III**

**Marriage, Parenting, and Personality**

Chair: Jenae M. Neiderhiser

**4:00**

- Genetic Effects in Parental Bonding
  - Paul Lichtenstein, David Reiss, Marianne Cederblad, Olle Elhammer, Jenae M. Neiderhiser, Kjell Hanson, and Nancy L. Pedersen

**4:15**

- The Association between Mothering and Marital Relationships: Is it all in the Genes?
  - Jenae M. Neiderhiser, Erica Spotts, Paul Lichtenstein, Nancy L. Pedersen, Kjell Hanson, Marianne Cederblad, Olle Elhammer, and David Reiss

**4:30**

- Exploring the genetic and environmental structure of the Tridimensional Personality Questionnaire
  - Michael C. Stallings, John K. Hewitt, Scott M. Hofer, Andrew Heath, and Lindon J. Eaves

---

**MONDAY JULY 5**

---

**SYMPOSIUM II**

**Monday July 5, 8:15 - 10:15**

**QTL Mapping: Exploring the Genetic Basis of Variation in Brains and Behaviors**

Organized by Pierre Roubertoux and R.W. Williams

**Phenotypic QTL Introgression: Analysis of the Midbrain Dopamine System**

Csaba Vadocz and Laszlo Zaborszky

**Identification of QTLs for Saline and Ethanol-Induced Locomotor Responses**

R Hitzeman, J. Demarest, J. Koyner, L. Cipp, B. Hitzeman, and J. McCaughran

**Mapping QTLs that Modify the Architecture of the Mouse Brain: A Prelude to Behavioral Analysis**

R.W. Williams

**Co-Detection of Quantitative Trait Loci (QTL) for Cerebellar Patterns of Foliation (cfr) and Hindlimb Coordination in Mice**

**QTL mapping: A Tool to Found Behavioral Neurogenetics**

Pierre L. Roubertoux, and I. Le Roy

**A QTL for Light-Phase Slow-Wave Sleep in Influenza-Infected CXB Recombinant Inbred Mice**

L.A. Toth, and R.W. Williams

**10:15 - 10:45**

**Coffee**
Monday July 5, 200_ 10:45 - 12:00

**PAPER SESSION IV**

**Behavior Genetics Association**

Chair: Rick Viken

**Barclay Room**

### 10:45

**The Equal Environment Assumption and Similarity of Mother Reports of Emotional and Behavioral Problems among Female Adolescent Twins**

Nikole J. Cronk, Wendy S. Slutske, Pamela A.F. Madden, Kathleen K. Bucholz, and Andrew C. Heath [7]

### 11:00

**An Easy Method of Linking Databases to Internet White Pages for Systematic Tracking and Identification of Research Participants**

Michael B. Miller, and Marc Kayson

### 11:15

**Estimating Genetic and Cultural Transmission with Genetically Informative Data from both Parental and Offspring Generations**

Richard J. Viken, Richard J. Rose, Jaakko Kaprio, and Markku Koskenvuo

### 11:30

**The P300 Event-Related Brain Potential in Neuropsychiatric Disorders: A Moderator of Genetic Risk**

Andrey P. Anokhin, J.W. Rohrbaugh, Alexandre A. Todorov, and A.B. Vedeniapin

### 11:45

**Peroxisome Proliferator-Activated Receptor PPAR (gamma) as a DZ Twinning Gene in Man**

---

**Monday July 5, 200_ 10:45 - 12:00**

**PAPER SESSION V**

**Behavior Genetics Association**

Chair: Nick Martin

**Gillford Room**

### 10:45

**Antisocial Personality, Family Environment, and Alcohol Misuse**

Kerry L. Jang, W. John Livesley, and Phillip A. Vernon

### 11:00

**Longitudinal Analysis of Genetic and Environmental Influences on Drinking Across Late Adolescence**

### 11:15

**Genetic and Environmental Influences on Self-Reported Sensitivity and Tolerance to Alcohol**

### 11:30

**Association of Monoamine Oxidase (MAO) with Smoking, Alcohol Dependence and other Measures of Psychopathology and Personality**

Nicholas G. Martin, John B. Whitlefeld, Donna Pang, Katherine M. Kirk, and Andrew Heath

### 11:45

**Vulnerability to Substance Abuse**

Marvin Zuckerman

---

**Monday July 5, 200_ 1:30 - 3:30**

**SYMPOSIUM III**

**Behavior Genetic Studies in Non-Human Primates**

Organized by Alexander Weiss

**Barclay Room**

### 1:30

**Heritability of Hand Preference in Chimpanzees (pan troglodytes): Evidence from a Partial Interspecies Cross-Fostering Study**

William Hopkins

### 1:45

**Heritability of Some Common Measures of Cognitive and Reflex Development in Infant Pigtailed Macaque Monkeys**

James C. Ha

### 2:00

**Can We Breed a Happier Ape? The Heritability of Subjective Well-Being in Zoo Chimpanzees**

Alexander Weiss

### 2:15

**Genetic Linkage Mapping in Primates as a Tool in Behavior Genetics**

Jeffrey Rogers

### 2:30

**Impaired CNS Serotonin Functioning, Excessive Alcohol Intake and Aggression: A Nonhuman Primate Model of Genetic and Environmental Influences**

J. Dee Higley and Allyson Bennett

### 2:45

**Norm Henderson**

**Discussant**

---

**Monday July 5, 200_ 1:30 - 3:30**

**SYMPOSIUM IV**

**The Boundaries between Normality and Psychopathology: Behavior Genetic Approaches**

Organized by Kathryn S. Lemery and Irwin D. Waldman

**Gillford Room**

### 1:30

**Early Motor-Cognitive Development: A Study of 5-Month-Old Twins**

Daniel Peruse, Richard E. Tremblay, Michel Boivin, and B. Boulerice

### 1:45

**Exploring the Etiology of the Relationship Between Temperament and Behavior Problems with Temporarily Extreme Twins**

Kathryn S. Lemery, Amber Galagan, and H. Hill Goldsmith [7]

### 2:00

**The Aetiology of Anxiety Symptoms in Pre-School Children: Temperament or Psychopathology?**

Thalia Eley, and the Twins' Early Development Study (TEDS)

### 2:15

**Are Genetic and Environmental Influences on ADHD the same throughout the Range of Symptoms as at the Disordered Extreme?**

Irwin D. Waldman, Soo Hyun Rhee, David A Hay, and Florence Levy

### 2:30

**Structural Equation Modeling Approaches to Identifying Normal vs Abnormal Variation**

Michael C. Neale, Discussant

### 3:30

**Coffee**

### 4:00 - 6:00

**POSTER SESSION**

**Conference Foyer**

---
